OFFICE OF THE DAILY AFFEAL SATURDAY, Murch 2, 1879. FIRANCIAL.

There was no essential change in the cal money market. Bankers report a oders supply of currency with an ac-ved-mand; there is, however, sufficient for all legitimate wants. Estes are steady at 10 and 12 per cent. per annum, and 16 M on the street per month, Exchange on New York and other correction of discount when drawn on demand; otherwise, % per cent. Gold in New York declined to 110% yes-terday, and to day is 110%. Dealers here

buy sparingly at 10934@10934.

As money is altogether employed in holding cotton over a depressed market, but

feeling as at the close the night before The New York market at twelve o'clock was reported quiet but steady, and ruled so throughout the day. Futures advanced an 14 to 14c. This gave the market here slight improved tone, and free sellers esterday were out of the market to-day. The indications are favorable for a better, it not an advanced market the coming week. The influences that have been brought to bear upon the market to de-press it, have run their course, and the market must sooner or later react. It would seem as though the bottom had seen touched and that the reaction would begin from the present point. Buyers were actively engaged in "looking round" and sounding for the bottom, and wherver they found a weak holder they bought, and in some instances there was an eagerness exhibited to buy at inside uotations. We enter ain the same orin-ons heretofore expressed as to the firm and positive position of course. The new receipts for the week sudding Friday were 74,153 bales, against 126,935 bales corresponding time last year. For the coming week last year they were 126 535 bales. To-day's receipts were 76.56 bales pointing o about 60 000 bales for the week. These ight receipts must tell upon the market, Supply and demand govern the price at all times, and this rapid decrease in the supply will quicken the demand, and the stural consequences will follow-higher fices and an active market. There is iderable interest manifested in the chants to look carefully into this matter before they go to far. It may be for their interest and it may not—that is in the nammer in which it is proposed to be con-
